CORAL GARDEN

HOTEL LE BORA BORA
SEA NAREA

The coral workshop, a souvenir that will make this incredible trip last...

The protection of coral reefs and marine biodiversity is at the core of our concerns. And thanks to the help of "SeaNarea", we are able to raise awareness among our guests.

With this activity, coral will no longer hold any secrets for you! You will discover the basics of its feeding and reproduction methods, and become an actor of its conservation.

An interactive presentation will take place at the edge of the lagoon. You will then take your own coral cuttings that we will install together in the aquatic garden, which will be re-implanted on our reefs, when they are mature.

A certificate of cutting will be sent to you with photos of your cuttings and a follow-up will be made so that you can see them grow. Once the cuttings are re-implanted on a reef, the GPS location of your cutting will be communicated to you!

SEA NAREA

Leave your imprint in Bora Bora...

Sea Narea offers to those who wish, the possibility to sponsor coral slabs to finance the preservation of the natural lagoon of Bora Bora.

The Sea Narea team will make a 1m² slab on which they will install corals and coral cuttings. This method allows to have a greater impact and to increase the coral cover to promote biodiversity.

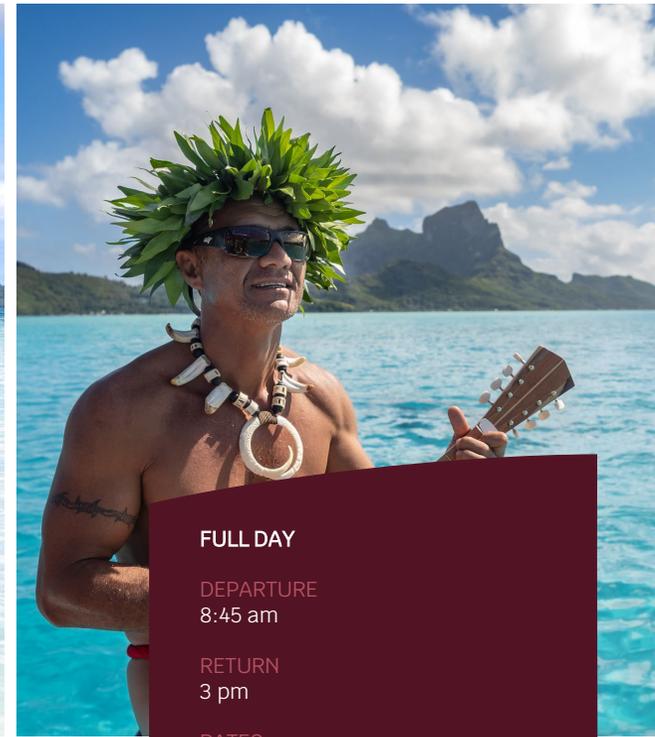

As a sponsor, you can choose the shape of the coral slab (round, heart-shaped, turtle or ray...) and your name will be engraved on it.

By sponsoring coral slabs, you participate in the preservation of corals for future generations.
